Defining Education and Comparing Methodologies and Practices

scaffoldinamaaic.com

Defining education, comparing practices, and highlighting best digital educational resources

As in the best educational practices, we'll explore education and educational practices from the whole gambit of thinking questions.

Please feel free to suggest your own before or during our chat.

- 1. Where did you grow up and what has been the biggest influence on your education?
- 2. How would you define education?
- 3. When you see options for the youth today, how much of the methodology they learned through has affected their future vs. choices they made along the way?
- 4. How did you become a specialist in educational technology and software?
- 5. What digital resources do you see as the most effective and why?
- 6. What would you say to schools who have limited financial resources to invest in technology?
- 7. How do you feel about higher education? Is it imperative?
- 8. What would you suggest to teachers to include in their classes that you did not have?
- 9. What if you could make one suggestion to teachers all over the world. What would that suggestion be?
