## How do we create future LEADERS in the classroom?

### QUESTIONS TO ASK YOURSELF:

In the best case scenarios, our directors treat us like leaders.

In the best case scenarios, we treat our students like leaders.

In the best case scenarios, our students leave the classroom **ready to change the world!**

If we are not creating leaders...are we creating followers?

If we are not creating leaders...do our students consider different futures?

If we are not doing everything we can to give our students critical thinking skills **are we perpetuating**
