

## Phenomenon-Based Learning: The Affective Domain MODULE 1 LESSON 3 SCAFFOLD

1. With a recording device, in 3-5 minutes, explain why class meetings could raise the feeling of well-being for your students, while also giving them opportunities to develop social skills

Use these terms to support your argument:

- communication skills
- a focus on problem-solving
- a sense of belonging
- empowerment
- distinguishing between judgment and reactions

2. With a recording device, in 3-5 minutes, use the image on the right to explain how the understanding of the normal development of language development could help students to feel more patient with themselves.

Use these terms to support your argument:

- organic learning of home language
- restrictive hours learning classroom language
- 13,797 hours it generally takes to learn any language

*Language Acquisition:*

|   |              |  |
|---|--------------|--|
|  | 1 month      | • Distinguishing speech sounds           |
|  | 6 months     | • Beginning verbal sounds, sign language |
|  | 12-18 months | • Holophrases                            |
|  | 3-5 years    | • Resembling adult speech                |

3. With a recording device, in 3-5 minutes, explain how the using varied learning styles in activities, could lower stress in your students.

Use these term to support your argument:

- movement
- tactile learning
- speaking
- collaboration
